S.R. Lab **In Brief**

Founded in 1996, S.R.L was established to offer state-of-the-art textile testing services to a diverse clientele, including spinners, weavers, knitters, dyeing and printing units, buying houses, textile traders, and leading international stores.

S.R.L also collaborates with suppliers for public and various private organizations across the country, ensuring that the performance requirements of these agencies and industrial entities are met.

As a leading ISO/IEC 17025:2017 accredited textile testing laboratory in Pakistan, we adhere to standard operating procedures that guarantee impartial, reliable, reproducible, and globally accepted results.

Vision

Vision

To provide impartial, standardized, and globally valid results that promotes business growth while ensuring consumer safety and environmental protection.

Mission

Adding value of our client's esteemed product by providing quality testing at competitive prices with the shortest lead time.

Mission

CEO Message

S.R. Laboratories (Pvt.) Ltd. (S.R.L) has tirelessly dedicated itself to serving every valuable client with high-quality testing, competitive pricing, and reduced lead times. In an increasingly demanding environment where testing requirements continue to grow, S.R.L has expanded into Restricted Substances testing. We have successfully installed our first piece of high-tech equipment, the GCMS (Gas Chromatography-Mass Spectrophotometer), and have begun relevant testing.

Recognizing the growing demand for heavy metal testing, we have also launched our second high-tech instrument, the AAS (Atomic Absorption Spectrophotometer), which is now fully operational and supporting industry needs. Looking forward, I am committed to diversifying our services by entering the fields of Environmental Testing, Water Testing, Wastewater Testing, and Food & Nutritional Testing.

The addition of RSL testing has significantly enhanced S.R.L's appeal to international buyers, leading to substantial business growth and enabling our team to capture a larger market share, thanks to our renowned services.

With over 25 years of experience in the textile industry, S.R.L has built a strong reputation for its dedication, hard work, and unwavering commitment to quality testing. S.R.L has become a symbol of quality and trust. As the Founder and CEO of S.R.L, I believe our success lies in maintaining quality at all times while embracing innovation. I would like to express my gratitude to everyone who shares this passion with us.

Warm regards,

Syed Sabir Ali
Technical Director
